

16 September 2008.

Dear Darin

On behalf of all VEC staff who participated in the training course for Certificate 3 & 4 in Transport & Logistics (Warehousing & Storage) I wish to convey my appreciation for the professional and friendly manner in which you conducted the course.

Staff stated that you made the course interesting, informative and were more than happy with the subjects covered. They are now very keen to put that knowledge into practice. I noticed that on completion of the course, staff seemed more confident and more knowledgeable in many aspects of their job roles.

I have no hesitation in recommending you as a trainer, or Choice as a training provider to any other organisation thinking of training staff in this field.

Once again, many thanks and hope to use your services in the future.

Yours sincerely

John Marsicovetere

Manager, VEC Warehouse.
